F.T.A. NAME CLUB AFTER ADLER

A well-developed personality, devotion to the teaching profession, and good scholarship will be the criteria for admitting members into the "Mortimer Adler Education Club," according to Edward Meyer, President of the group, organized on campus last week.

The organization, which is an affiliate of the Future Teachers of America, is also part of the National Education Association. Members are eligible to join NEA upon commencing their teaching careers.

Meyer said that the club adopted Adler as its "inspiration" because of Adler's great influence in Catholic thought. Adler, a noted educator, philosopher and author, is also well-known for his advocacy of Thomism. On campus Adler's influence has permeated the Humanities and Biology programs expecially.

Fifteen education concentrators are at present members of the organization here. Meyer says that this will probably be the limit for this year. He states, "We are interested in quality, not quantity, and especially desire students who plan to enter our public high schools upon graduation." The program for the year, already outlined, includes addresses by first-year teachers, principals, superintendents, and educators of note.

Prof. Thomas Moran, chairman of the Education Department, is moderator of the group. Other officers include, Thomas Leavitt, vice-president; Newell Frazier, secretary and Dan O'Hear, treasurer.

Chapter FTA president, Edward Meyer, and Faculty Moderator, Thomas Moran, talk with Dr. Mortimer Adler, of the Institute for Philosophical Research in San Fransisco. The Education Club on campus have named their group after Adler.

'51 Grad Dies In Jet Crash

A requiem high Mass was sung in St. Peter's Church, Rutland, Vt., Wednesday for Lt. John A. Terenzini, '52, who died in a naval plane crash at Jacksonville, Fla., on October 13.

The Air Force ROTC unit sent a color guard and the college delegation, headed by our president, Very Rev. Francis E. Moriarty, S.S.E., included Rev. Daniel P. Lyons, S.S.E., vice-president; Rev. Maurice U. Boucher, S.S.E., Thomas J. Kenney, alumni secretary and John D. Donoghue, public relations director.

Lt. Terenzini, who was king of the Winter Carnival, manager of the undefeated 1951 football team and head waiter, was an honor graduate and a member of Delta Epsilon Sigma. Besides his parents, he is survived by his wife and a son, Michael.

May he rest in peace.

SHIELD TO HOLD PHOTO CONTEST

"One picture is worth a thousand words --- plus cash prizes," stated Yearbook Editor Don Flynn as he announced the opening of the "Shield's" First Annual Photography Contest. The school-wide affair is open to students and faculty alike, and will terminate March 1, 1956.

The Yearbook, according to Flynn, is looking for informal pictures of campus life and is willing to pay for them. A

SENIORS PLAN ANNUAL DANCE

On the 29th of October the Senior Ball will be held at the Olde Board. The selection of a proper date has been discussed at considerable length and the decision was finally made in favor of the 29th, in order to accommodate those who wish to attend another of the social functions held during the Fall.

Don Cook and Oggie Dodge, co-chairmen of the ball, have met with the committee of their selection and the necessary details of the event have been outlined.

Tony Stewart, Vin Iarossi, Frank Keane, Tom Schnurr, Tom Sullivan, Ray Geremia, Jack Thompson, Bob Wilson and Al Scia are the appointed committee members.

SOME CHANGES MADE

The Senior Ball has become a tradition at St. Michael's. It has always been set up on approximately the same basis and has varied very little from year to year. This year the committee has decided to alter that tradition somewhat. The most noticeable change is the dress. In previous years the Ball has always been strictly formal, but general opinion is that a formal affair, especially at this time of the year, would be too costly. Therefore the Ball will be semi-formal.

In view of the fact that financial success is not the main objective, a change has been made concerning ticket prices. In years past tickets, per couple, have sold for as high as six dollars. This year the price will be cut to two-fifty per couple to insure a social success.

DANCING 8 - 12

The banquet room of the Olde Board has been rented for the occasion. A soft drink bar will be set up in the room and h'ors d'oeurves will be served during the evening.

A local band will supply the music from eight to twelve.

POLICY DECLARATION: While the MICHAELMAN is being put to bed each week no one will be allowed in the offices except staff members and the Moderator.

PRE-ENGINEERING COURSE ADDED TO CURRICULUM

St. Michael's will initiate a special pre-engineering course next fall, in collaboration with the Engineering Department of the Catholic University of America. This two-year course is designed especially for those students who are not sure of their choice and who do not wish to jeopardize their college career by entering a school of engineering immediately; for those who desire a liberal arts foundation for engineering studies; for those who desire to live at, or near home, for the first two years of college.

The two-year course parallels the first two years of the Engineering curriculum at the Catholic University of America, but the change from the regular program of studies at St. Michael's is so slight that a student who changes his mind at the end of two years can still graduate with his class.

Depending on the student's qualifications the degree in engineering may be earned in four or five years. To earn the degree in four years the student must be capable of beginning Analytic Geometry and Calculus as a freshman and complete Calculus and take Differential Equations as a sophomore. If he is not prepared to take Analytic Geometry and Calculus as a freshman, he may still complete the program in four years and one summer session.

The freshman year of the pre-engineering curriculum includes the following courses: English Composition, General Inorganic Chemistry, History of Western Europe, German or French, Religious Education, AFROTC and Analytic Geometry and Calculus or Algebra and Trigonometry.

The sophomore year curriculum includes courses in Physics, Philosophy of Science, German or French (continuation), Religious Education, AF ROTC, Calculus and Differential Equations and Mechanical Engineering - or Analytic Geometry and Calculus and Mechanical Engineering.

APRIL RECESS DATE CHANGED

The Student Council, in concert with the efforts of Dick Bousquet, has requested and been granted an alteration of the dates for the annual Easter vacation.

The Council appointed and sent a committee, chairmaned by Mr. Bousquet, to Fr. Dupont for purposes of inquiry on the matter, and Fr. Dupont announced, through this committee, that the Easter vacation, contrary to what the college calendar (Student Guide) stated, the vacation will extend from March 27 to April 9. Easter, incidentally, falls on April 1.

Several other noteworthy events have occurred in the latest two Council meetings.

BLOOD DRIVE

A blood drive will be held at the college on November 14 and Ray Geremia has been put in charge of the event. In years past St. Michael's has generally reached its quota and in several cases exceeded it. This year the quota is set at 122 pints.

AAS Sponsors DeGoesbriand Nurses Angel Flight

Captain Margaret Mills (center) USAF nurse personnel Procurement Officer, discusses work of the nurse in the Air Force with AAS president Cadet Lt. Col. Frank Adams (right). "Angel Flight" composed of nurses from Bishop DeGoesbriand Hospital and sponsored by SMC's Arnold Air Society as being formed to stimulate potential nurses' interest in the Air Force as a career. AAS Moderator Capt, Frank Delmerico, looks on.

In keeping with this restless age of rapid aviation expansion, rapid expansion was witnessed this week by the addition of a Nurses Angel Flight under the sponsorship of the Arnold Air Society to the Saint Michael's College Air Force Reserve Officer Training Corps. The Angel Flight idea was originated on the campuses of co-ed colleges and universities in conjunction with R.O.T.C., the co-eds of each particular institution composing the Angel Flight.

FIRST "OUTSIDE" ANGEL FLIGHT

The affiliation of St. Michael's with an Angel Flight outside its physical boundaries is the first action of its kind taken by an ROTC detachment anywhere in the United States. The primary purposes of incorporating Angel Flights into ROTC are to encourage and supplement all social events

LECTURE WEDNESDAY, OCTOBER 26
by
Attorney Robert Picher
Subject:
"Law and Philosophy"
Place:
College Hall 28
7:30 P.M.

Business Forum Inaugurated

A newly initiated Business Forum will be added to our extensive list of clubs on campus.

The club will be run by committees elected by the members. It will be under the supervision of Douglas Archambeau, acting president. The moderator of the club has not yet been named.

The purpose of the club is to bring to business majors and other parties interest in their line of work, by bringing them close to business itself.

Many activities will be planned at the bi-monthly meetings. Among the activities, will be an address, on November second, by Mr. David T. Jones, manager of the Remington Rand division at Boston, Mass.

Mr. Jones' topic will be "A Selling Career," in which he will point out several interesting business items.

Qualities of a salesman, experience, interviews, formal schooling, different fields of selling, and many more such items will be covered by Mr. Jones.

Congratulations To:

Mr. and Mrs. Robert Shiner of Miketown who became parents of a son on October 16.

Congratulations also go to Mr. and Mrs. Robert Anderson of Miketown, who became parents for the first time on Wednesday.

ADLER, ST. MICHAEL'S, AND THE LIBERAL ARTS

Much head-shaking among Vermont school teachers and at least a little skepticism on the part of one of the Burlington dailies was caused by Dr. Adler's address to the Vermont Education Association here last Thursday, but he certainly strengthened the case for a Liberal Arts education - on both the high school and college level.

Pointing out that the 20-hour work-week is in the not-too-distant future, Adler stressed that the great amount of leisure stemming from this should be employed at tasks "worth doing for their own sake" - this in opposition to those who feel the free time should be spent at playing games and other activities which are "only means to an end."

WE AGREE.

It's amazing how many people, and especially we Catholics who have to be convinced and re-convinced of the value of a "general" or "liberal arts" education. The difficulty lies, we suppose, in our forgetting that the LIFE comes first and the LIVING second. Without the first there exists no cause for the second. This is the reason we must first be taught HOW TO LIVE, and then instructed in HOW TO MAKE A LIVING.

In the future, as more of us have more time to spend more money and thus create still more jobs, with similar consequences, we shall be faced with a strange, almost paradoxical situation. We shall have to be more apt in some particular small area; we shall all have to be specialists. But at the same time, we shall all have more leisure in which to develop ourselves as we should. This means we shall need ever more of this broad background to fall back on. More and more, we will have time and ability to develop THE MAN.

Too many of us have been so influenced by the secular philosophies around us that we are Catholic long enough to go to Mass on Sunday - the other six days of the week, we act like a Sinclair Lewis character - we're just another Babbitt, fighting for the dollar, honest or otherwise. We can't go above the crowd because we don't know how, or as in many cases we don't want to know how.

The St. Michael's Plan embodies the true Catholic philosophy. It puts the stress on men's souls, and not on their bodies. It did not lead the field in the recent reversal from specialization, but it was one of the first followers. Since it was initiated on campus, other institutions for higher education have modified their curriculums to give them a broader base. Much of this may be laid to Adler.

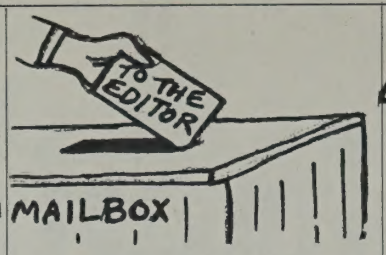
Adler's influence on this campus is well-known. As an educational philosopher he is ranked second only to St. Thomas Aquinas. Those having heard or read what Adler said in Burlington would certainly agree that he stated his case well - his influence should now be even greater.

IN MEMORIAM

We salute in him, all the unsung great men who seek perfection in the ordinary duties of life. Mr. Bessette will live in the memory of all who knew him, faculty, students and fellow-working men, as an inspiration to better living. May God grant eternal rest to his soul and solace to his grieving relatives.

ATTENTION JUNIORS - Ring orders will be taken in the Bookstore on Thursday, October 27, 1955

ATTENTION SENIORS - caps and gowns may be picked up at the Bookstore, Monday, October 24, 1955.



WANTS FIGHT SONG LEARNED

Dear Mr. Leavitt:

I ask your consideration in putting the following article in the forthcoming issue of the MICHAELMAN. At the same time may I take time out to congratulate and compliment you and the staff on the fine job you are doing on said publication. The editorials have singularly distinguished the MICHAELMAN from others I have seen since coming to S.M.C.

To the Class Presidents, Leaders and all Michaelmen:

One part of college life and something which has pervaded at S.M.C. is school spirit. A very integral part of this school spirit which I see lacking at our school, is a knowledge of school songs. In many schools the first year men are forced into learning their college songs.

At St. Mike's we don't agree with these methods. It not only creates animosity between classes but it goes against a basic tenet, that school spirit should spontanesouly arise from a feeling of pride in one's school, a just pride in her Academic and Sports Curriculum. We have have every right to be proud of ours at S.M.C. One of the best means of expressing this spirit in addition to uniting the students is the singing of school songs at appropriate times and places, i.e. in bull sessions, at dances, at class meetings and at sports events.

Let's face it. How many Michaelmen know their Fight Song? How many know there are several Alma Mater songs just waiting for the students to decide which shall be the official one of S.M.C. (by popular use)? How can we accomplish this task?

I now address you Presidents and Class Leaders: Make copies of the Fight Song and of the Alma Mater songs. Distribute them at your class meetings. End said meetings with the singing of them. Keep this up until we know every Michaelman knows his school's songs like he knows his name. Let's hear them at our dances, and at our games. Let's show people we're proud of St. Michael's College.

Sincerely by Michael's Lance,
A Purple Knight

FATHER LIKES BURLINGTON

Dear Sir:

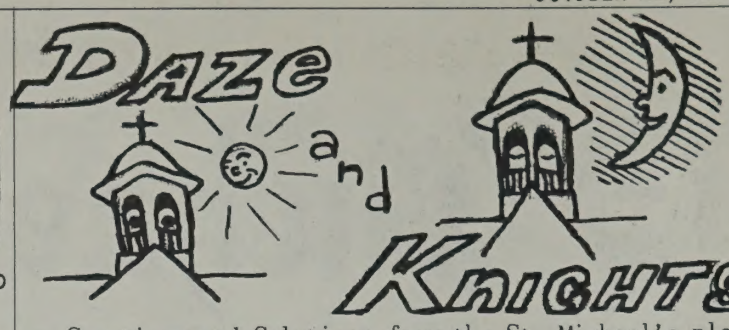
As a subscriber to your fine paper, I am taking advantage of your offer to write you a letter. Having a son at St. Michael's (Frank T., Junior) Mrs. Welch and I have made many trips to Burlington. It is a city we have learned to love and hate to leave. Apart from personal considerations, we feel that it has a certain sparkle, an air of freshness, the look of cleanliness that few cities possess.

In traveling through many towns to get to Burlington, we often see this familiar sign at the exit from the town, "Thank you - Call again." If the City Fathers in Burlington are agreeable with the whole sentiment, I wish that they would erect, at the exit of the city, a sign which would read as follows:

Sorry you are leaving?
So are we!

Very truly yours,
Frank T. Welch, Sr.

1st Issue of "Lance" - December -
Contribution deadline November 6
Type and double-space mss. if possible
Leave mss. at telephone office
R. Battles, Editor



Greetings and Salutions from the St. Michael's playground of plebians. Say, did anyone lose his yellow oiseau? There was one flying around the Chow Hall last week. It was so evasive not even the agile waiters could ground it. The incident leaves one with the impression that 93% of the Michaelmen can't be wrong: *"The food is for the birds."*

Our discrete and intellectual President of the Student Council was seen coming out of the Saturday afternoon Kiddies' show at the State. The next Council meeting will discuss the probability of the Lone Ranger selling Silver if he gets drafted.

His much-stressed Newton Laws failed Mr. Billups when he visited the Air Base a short time ago. Donned in the genuine crash helmet, he sat himself in the life-like jet simulator. Levers were pulled, the stick geared, dials spun and Mr. Billups was off like a big bird. His mythical landing wasn't quite as successful since it was *"interrupted,"* by the crash buzzer. Truly spoken, what goes up must come down Mr. Billups, but the Air Force seems to be stressing the *"where"* nowadays!

While the faculty is being brought to trial, is it true that Mr. Moran's class prayer is, Mortimer Adler, pray for us?

It's Hats off to Mr. Bob Leonard who so fearlessly disposed in Austin Hall the political corruption of his hometown, Tuckahoe, N.Y. So what if he's been missing for the last few days, that was a darn good speech. "You can laugh, it's not your hometown!" Way we go, Bob!

Due to the lax and inefficient enforcement of the demerit system of last year, the Colonel intends to make the penalities a little more stringent this year. All delinquents are obliged to abide by the following orders:

For Five Demerits - The Cadet must simonize the Colonel's car once a week for one week.

For Ten Demerits - The Cadet must jump from a plane at 1000 ft. into Lake Champlain in a crepe paper parachute.

For Fifteen Demerits - The Cadet must be in the company of a Trinity girl on a prearranged date for a minimum of four hours. It's clear that the regulations regarding this matter are of a serious nature.

The hunting season for the larger prey is coming right up now so Mr. Tynan will have to stop his now gung-ho boys from growling. Those red-jacketed Vermonters are fast with that trigger. Wouldn't it be dismaying to see your roaring cadets go down like duck pins?

There will be a meeting of the A.D.D.* Club in the Holcombe Observatory tonight at 11:55.

In closing, I would like to emphasize the great foresight the founders of the College had when they placed the Infirmary next to the Chow Hall.

I remain,
Publius

LITTLE MAN ON CAMPUS **by Dick Bibler**

"Louise told her you would be a swell blind date, but she must have found out about you anyway."

Campus Rehabilitatated Over Summer

When upperclassmen returned to the Hilltop last month they found that all was not as they had left it last spring. Many improvements had been made with some evident and others not so noticeable.

The most obvious change has been the construction of a new dormitory next to Ryan Hall. Work on the building has been progressing at the rate of one floor every three weeks. Bricks will be laid very soon. Present plans call for this to take place when the third floor is finished. The roof is expected to be put on by the first of December.

Perhaps the second most obvious change was the removal of the barn, east of Ryan Hall. This had to be done to facilitate the expansion of the college.

The addition of more shrubbery will tend to beautify the campus. Shrubs of a variety of types have been planted near the infirmary, dining hall and along the roads. The roads themselves have undergone an eight thousand dollar blacktopping job.

Additional classrooms were made by the division of College Hall 46 and Aquinas Hall 106. The use of acoustical tile in the rooms in College Hall will serve to soundproof them.

The job which is probably least evident to the student body is the redecoration of Father Moriarty's office. This job is still incomplete.

Why do more college men and women smoke VICEROYS than any other filter cigarette?

Because only Viceroy gives you 20,000 filter traps in every filter tip, made from a pure natural substance—cellulose—found in delicious fruits and other edibles!

1. Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in *any other cigarette.*

2. The Viceroy filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroy pioneered. Started research *more than 20 years ago* to create the *pure* and perfect filter.

3. Smokers en masse report that filtered Viceroys have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.

4. Viceroy draws so easily that you wouldn't know, without looking, that it even had a filter tip . . . and Viceroys cost only a penny or two more than cigarettes without filters!

That's why more college men and women smoke VICEROYS than any other filter cigarette . . . that's why VICEROY is the largest-selling filter cigarette in the world!

20,000 Tiny Filter Traps... plus that Real Tobacco Taste

SOPH SOCIAL SAT. NIGHT

Saturday, October 22, will be the date of the Sophomore Social. This dance, an annual affair, will be of a different nature this year since it will be of the "stag or drag" type. Walt Taylor's band will supply the music.

Class President, Joe Lee, has announced that the dance is being publicized at Trinity, and the local hospitals and high schools. This advertising is being done by Bill Willig and Kevin Dwyer. Tickets will cost fifty cents and may be obtained from Bill O'Reilly.

The remainder of the committee is made up of Dom Villoni, Jim Gafga, Mike Ready, Bob Flanagan and Joe Haley. The first two will be in charge of checking and the latter three will take care of the refreshments at the dance.

CLUB BUDGETS PASS COUNCIL

At a recent meeting the Student Council Budget Committee announced the budget allotments to campus clubs. Two objections were raised concerning the specific amounts granted. Donald LaPointe, president of the Chemistry Club, claimed his club could not adequately plan for the coming year with the meager budget he was allotted. He was informed that the Council held a cash reserve to be used for emergencies and that, if necessary, he could request an additional amount.

SOCIOLOGY CLUB IGNORED

Bob White, president of the Sociology Club, objected to the unfair allotment of budgets in the form of a written protest and Mr. White minced no words in his "formal reprobation of the arbitrary manner of treatment accorded (the Sociology Club's) request for a budget...." He termed the action of the Council in this matter "... hasty, ill-conceived, incompetent and punitive" as he outlined the numerous and worthy activities of his club.

No objection, save these two, was raised. The entire budget set-up for the current year has been approved.

The "Shield" and "The Michaelman" received the largest part of the $10,616 budget. The "Shield" received $4,100 and "The Michaelman" was granted $3,410. The remaining $3,000 was divided among the 20-odd clubs on campus.

MET FOR HIGHER EDUCATION, Rev. Dr. Eugene Alliot, S.S.E., former SMC president; Rev. George Fabre, Superintendent of the parochial schools in the diocese of Lille, France, and Bro. Augustine Gerard , F.I.C., discuss their common interests. Father Fabre is visiting leading institutions of higher learning in the U.S., while Bro. Augustine is studying here in preparation for teaching in Africa next year.

Christian Brother Africa Bound

St. Michael's College is now preparing a Christian Brother to do missionary work in Africa. Brother Augustine Gerard has come here to obtain his masters' degree in Science. He is no stranger to this campus, having studied here during the summer sessions in 1954 and 1955.

ACTIVE ON CAMPUS

In order to receive his degree he is taking courses in Biology, Physics, Teaching Methods and Education. Two of the four courses he is taking on his own with the assistance of faculty advisors. His activity on campus is not all of a studious nature. Brother Gerard has joined the Glee Club and the Choir and plans to remain an active member until his departure.

Brother will complete the requirements for his degree at the end of the first semester. Immediately after receiving his degree in February, he will leave for Africa. Here, he will teach in a Negro junior or senior secondary school. In accordance with the aims of his order, he will prepare boys for college and strenghen their faith in God.

MAINE NATIVE

Brother Gerard is a native of Biddeford, Maine. His greatest ambition in life is to be a missionary. In order to reach this goal he has spent many years in hard studying. He received his B.A. from the University of Montreal.

His order, the Brothers of Christian Instruction, was founded in 1817 by Venerable De La Mennais. The order prospered and now it has 1000 members teaching in the schools of the United States and Canada.

Barr Fellowships Available For Springfield Men

Of probable interest to the Springfield, Mass., area students of St. Michael's is the announcement that the Trustees of the Horace Smith Fund in Springfield, Mass., will make available, under the Walter S. Barr Donation, fellowships for the scholastic year 1956-57 in the total amount of $5000.00 for advanced study or research. These fellowships are limited to residents of Hampden County, Mass., who have been or are about to be graduated from college. Hampden County includes Agawam, Blandford, Brimfield, Chester, Chicopee, East Longmeadow, Granville, Holland, Holyoke, Longmeadow, Ludlow, Monson, Montgomery, Palmer, Russell, Southwick, Springfield, Tolland, Wales, Westfield, West Springfield and Wilbraham.

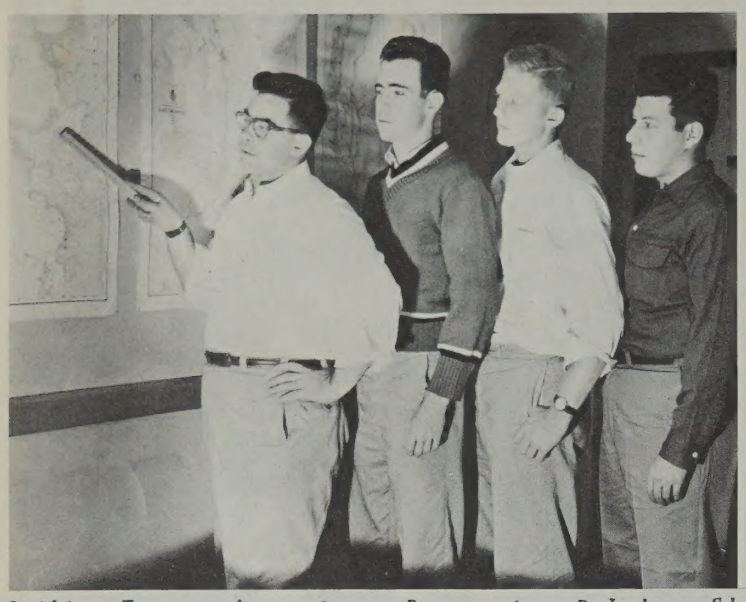
As a rule the fellowship awards will be not less than $1000.00 each. Awards will be made for one year, with the expectation that they will be continued if it seems warranted.

Candidates who look forward to careers of definite social usefulness are to be preferred. Such careers might be found, for example, in politics, in scientific research, in teaching, in the priesthood, and in other learned professions.

The fellowships will be awarded on the basis of comparison of the school and college records of candidates, of financial resources available to them and of all other pertinent information. Candidates are expected to take the Aptitude Test of the Graduate Record Examinations offered in nationwide administration on either November 19, 1955 or January 21, 1956. If this requirement entails financial or other hardship on the candidate, he is requested to inform the chairman at an early date.

Application forms will be sent on request. Address the Chairman of the Committee, William C. Hill, Box 131, Springfield, Mass.

SAILORS FACE BIG WEEKEND



Sailing Team members, L. to R., Marius Peladeau, Ed Hughes, Charlie Lafley and Paul Bostley, check their "geography" in preparation for their busy weekend schedule.

On Friday the St. Michael's College Sailing Team embarks on its most important weekend of the fall sailing season.

Co-Commodores Marius Peladeau of Brattleboro, Vt., and Ed Hughes of Huntington, N.Y., will lead the Knight Sailors to their biggest regatta of the fall at M.I.T. in Cambridge for the New England Intercollegiate Sailing Association's 33rd Semi-Annual Associate Dinghy Championships.

This championship is the number one event for all associate members of the NEISA. Besides St. Michael's, Colby, Merrimack, Rhode Island School of Design and Vermont will compete for the Intercollegiate Yacht Racing Association of North America trophy awarded to the winner of this event.

Peladeau and Hughes will be accompanied on this trip by Charles Lafley of Bristol, Vt., and Paul Bostley of Greenfield, Mass.

The winner of this regatta at the M.I.T. Sailing Pavilion on the Charles River Basin on Saturday will qualify for the Schell Trophy Regatta at the U.S. Coast Guard Academy Boat Club, November 5-6. This regatta at New London is the top ranking invitational meet of the NEISA.

The Knight Sailors will get no rest from this big event as Sunday will find them in Amherst, Mass., to take part in a quadrangular regatta at Amherst's home port on Lake Metacommet.

St. Michael's, Vermont, Amherst and Williams will be the four colleges taking part.

The Sailing Team at St. Michael's finishes its fall schedule the following weekend with three more regattas. On October 29, the sailors will close their home season with a meet on Malletts Bay against Vermont and Middlebury.

The St. Michael's Freshman team will be at home Sunday, October 30, against Middlebury and Vermont. The same day, the varsity will be at Middlebury against Middlebury, Dartmouth and Vermont to close out their season.

RIFLE MATCHES BEGIN SOON

Interclass competition has reached the shooting stage. Tryouts are being held this week for the rifle team. Any student may try out for the team whether he is in AFROTC or not. The competition will be on interclass and intercollegiate levels. The team will fire small bore .22 caliber rifles under the direction of Captain Francis X. Staley and Sargent Armand Doucette. Practice will be held regularly in the Winooski armory.

CLASS CAPTAINS

One man from each class will be chosen as Captain of his respective class team. He will choose his own team for the two interclass matches which will be held in December and next March. Between five and ten men will compete for honors on each class team. The top team will receive ten points towards the interclass trophy. The second team will get three points towards the trophy. Five points will be awarded to the class that has the highest individual winner.

The first intercollegiate match will be against Trinity College on November 26. Our team of approximately twenty upperclassmen will enter the W.R. Hearst National ROTC Competition in December. In January, St. Michael's will fire in the Army Area Collegiate Match. In April, the team will compete in the Secretary of the Air Force AFROTC Rifle Match.

MATCHES PLANNED

Throughout the year the teams will challenge schools to postal matches. That is, each team fires on their own range. The scores of the firing are mailed to each other and compared. In this way St. Michael's can compete with schools from all over the country without ever leaving Winooski armory.

This year St. Michael's will be a member of the New England College Rifle League. This means that St. Michael's team will be competing with colleges from all of New England.

Quarterback Bud Porreca sets himself to hand off to Bill Leahy as Juniors drive for final score in 26-0 rout of Frosh.

JUNIORS WIN 26-0 CLINCH 1ST PLACE

Scoring twice in the second quarter and adding touchdowns in each of the final periods the Junior team crushed an injury-riddled Frosh squad 26-0 last Sunday in the Interclass League.

Jay Tierney paced the Juniors by scoring twice and passing for a third TD. This victory will insure the Class of '57 of at least a tie for first in the final standings. Judging from their output of 284 yards gained and the play of their huge line, first place has already been decided.

Following a scoreless 1st period Tierney broke the ice with a 3 yard sneak after Jack Dwyer set-up the score by running back an interception 29 yards. The try for the point was missed. Two minutes later the score was 12-0 as Tierney hit Ray Jaques with a 13 yard pass and Jaques carried it another 11. Again the extra point attempt was stopped.

STALLWORTH STOPPED

After stopping the Frosh offense, "Bill Stallworth," the Juniors put together a 53 yard drive for their third score. Bud McCulloch set-up the score with an 18 yard dash. A play later this same worthy threw a 23 yard pass to Dino Ginnari in the end zone for the tally. Dwyer added another point on a plunge and the count was 19-0.

Billy Stallworth in a heroic effort kept throwing and passing but to no avail. The Frosh sensation could not do it alone. After Bud Porreca brought the victors into enemy territory, a break set-up the final score. A Tierney to Bill Leahy pass was ruled good on an interference call. Tierney then plunged over for the final score. Dwyer completed the rout by diving for the one pointer and the game ended 26-0.

TEAM EFFORT

To single out any individual on the Juniors would be a miscarriage of justice to a fine team effort. Again Coaches Caprio and Maestroberardino rate a bow. Over in Jerry Cronan's camp two worthies stood head and shoulders above the rest all afternoon, Bill Stallworth, the one-man offense, and Don Lamoureux, a stalwart on defense.

Tennis Tourney Field Thins

By JAY TIERNEY

For the past five weeks tennis hopefuls have been battling for the St. Michael's College Davis Cup and the five points that are awarded to the winner's class for capturing the Interclass Tennis Championship. The field has narrowed from 52 to 5.

WARD ON TOP

Last Wednesday Mike Ward eliminated Dewey Corrigan 6-0, and 7-5. This assures Ward of a place in the semi-finals. The Soph hopeful was consistent in his serves and had good ground strokes in the opening set. Corrigan found himself in the second set, but Ward remained the master took the set and swept the match.

OTHER FINALISTS

Raymond Lafreniere drew a bye in the semi-finals and will be back into the finals. Ray is a Quebec student who is studying under the new English program set-up. Ward's opponent in the semi-finals will be the winner of the Ralph Turri-Walt Bellcourt match.

SCHNURR HOPEFUL

Weather conditions have seriously effected Director Tom Schnurr's scheduling. However, Tom expects the finals to be played this afternoon. On past performances leading to the finals the title play figures to be top-notch.

JUNIORS AND FROSH WIN BEFORE ALUMNI

Football highlighted Homecoming Weekend as the Juniors and the Frosh kicked off the Interclass Football league by defeating the Seniors and the Sophomores respectively before a large Alumni and student gathering.

JUNIORS WALLOP SENIORS

A well coached hustling Junior squad officially opened the season on Saturday two weeks ago by walloping the Seniors 21-6. A day later a frisky Frosh team ran the surprised Sophs into the ground, while rolling to a 31-0 victory.

Ray Jaques and Bud McCulloch teamed with Jay Tierney to spearhead the 3rd year men to their win. Tierney mixing his plays well and used his goal dust twins to good advantage all afternoon. Both Tierney and Jaques scored, while McCulloch threw a 20-yard pass to Fran Wallace for the initial score. An overpowering Junior line took the sting out of the expected Senior attack. Coaches Caprio and Maestroberardino deserve mention in a fine team victory.

PERFECT WEATHER

On Sunday it was just too much Stallworth and McNally. Inspired by perfect fall weather the Frosh scored five times and added one point to batter a punchless Soph squad. Coach Jerry Cronan's boys used a wide open game to nail their first victory. Bill Stallworth, scoring twice, led the attack. He was aided by the passing and running of teammate McNally. John Della Patta, John Ducals and Dick Allen all scored for the victors. Shining light for Jack Coffey's Sophs was the play of Ed Cashman.

Newman Debaters Discuss Guaranteed Annual Wage

By JIM CANAVAN

The Newman Debating Club recently completed its plans for the discussion of this year's national college debate topic: Resolved; "That all non-agricultural industries should guarantee their employees an annual wage."

A series of practice debates have been arranged, in the form of a round robin among Dartmouth, Vermont , Middlebury and Saint Michael's. In these debates there will be participation by both varsity and novice debaters. These debates will be held every week with the participating schools rotating the role of host.

MAJOR TOURNAMENTS

In addition to these practice debates St. Michael's has been invited to take part in three major tournaments. On November 18 and 19, the Vermont Invitational Tournament will be held with the top colleges in the East entered. Among those invited are West Point, Navy, Harvard, Georgetown, Holy Cross and Bates.

In early spring Georgetown will hold its annual Cherry Blossom Festival in Washington with teams from St. Michael's competing.

Every Catholic college in the country is invited to attend the National Catholic Tournament. This year it will be held in Boston and the St. Michael's club is planning to enter.

The debating club will have from six to eight varsity teams this year. Two men are on each team. Returning debaters with experience are Frank Adams, Daniel O'Hear, Gerald Kelly, James Ross, Donal Flynn, Richard Gelinas, Walter Bellcourt, Bob White, Jack Stebbins, Paul Kane, Bill Kreuter, Tom Gallini, and Hank Bredenberg.

The novice teams will be chosen from among sixteen candidates. Terry O'Grady and Hank Fortier are two Frosh who show exceptional promise.

In discussing the outlook for the year President Adams stated, "I think that we have an excellent chance of being one of the first rate debating clubs in the country. Our varsity men have two to three years of experience and have debated against the best in the East. We'll be ready for them."

Council

(Continued from page 1)

Four members of the Freshman Class have been assigned as temporary representatives to the Council. Terry O'Grady, Bill Kelly, Bill Stallworth and Jim McNally were chosen by the Frosh Week Committee. They will hold these positions until the Freshman Class holds its elections and regular representatives are voted in.

RADIO CLUB ACCEPTED

Henry O'Connor motioned that the St. Michael's Radio Club, WSSE, be accepted as a recognized club and that the Council accept Fred Blais, station manager, as the club representative to the Student Council. This motion was passed and Mr. Blais took his seat as a bona-fide member.

FR. COOMBS SPEAKS

Fr. Coombs, moderator, spoke to the Council briefly on the subject of finances. He warned that money allotted to the various campus activities should be doled out carefully and consideration should be given to the expected success of a club activity. This year, for instance, the Council has been entrusted with $9,642.00 to cover expenses of the numerous clubs. Such a grant should be handled with extreme care. It was decided that a discussion of possible improvements governing the financial activities of the Council would be arranged in the near future.

Mission Crusade Progresses

The Mission Crusade, under the able direction of its new moderator, Father Maurice Boucher, S.S.E., and President Joe Fortin, has undertaken a vigorous campaign for the benefit of the needy both here in the Burlington area and in the missions of the south.

Committees have been formed to carry out the different projects. At present there are four of them being conducted, each with a chairman; they are: the distribution of mite boxes; stamp collection; old clothes collection; and the Sunday night movie in Austin Hall. The latter is the newest project for the Mission Crusade.

Also new to the Mission Crusade this year is the convert work in Burlington.

Angel Flight

Continued from page 3

and equally important in this case, to acquaint nurses with Air Force nurse service.

ORIENTATION TRIP PLANNED

Tentative plans have been made for the Angel Flight, which will remain as a permanent addition to the Corp, to take an air trip to Gunter Air Force Base, Alabama. Since all Air Force nurses must go to Gunter for their indoctrination as well as flight nurse training, such a trip would serve as an opportunity for those interested in Air Force nursing careers to familiarize themselves with Air Force nurse service.

The flight will be composed of a minimum of about 20 girls, but as many as 45 may eventually attain membership. This would be in keeping with the average enrollment of our own Arnold Air Society.

All Arnold Air Society meetings will be attended by a representing number of the Angel Flight, so shall all Angel Flight meetings be attended by a representative of the Arnold Air Society, the purpose being to keep a constant link between the activities of both organizations.

OFFICERS TO BE ELECTED

The uniform of the "Angels" will be the regular nurses' cape and cap. Epaulettes will be issued to the members as well as insignias, the latter to be worn on the right lapel. The insignia will consist of an angel and the year or years of enrollment of the individual.

A Lieutenant Colonel will be chosen from the Senior Class as commander of the flight. She will be assisted by a Deputy Major chosen from the Junior Class. Two Captains will also be elected from the Freshman Class. There will be no rank lower than Second Lieutenant. Since Second Lieutenant is the lowest rank issued in the nursing service there will be no need for NCO ratings.

WHAT'S THIS?
For solution, see paragraph below.

A FLIGHT OF IMAGINATION prompted the Droodle above—it's titled: Flying saucer with Lucky-smoking crew. But it's a down-to-earth fact that Luckies taste better than any other cigarettes—and for down-to-earth reasons. First of all, Lucky Strike means fine tobacco. Then, that light, mild tobacco is *toasted* to taste even better . . . cleaner, fresher, smoother. So, "Glurg shrdlu!" (In saucer language, that means, "For taste that's out of this world, light up a Lucky!")

Pre-Engineering

(Continued from page 1)

Students who do not take Differential Equations as sophomores must take it during the Summer Session which follows the sophomore year. Mechanical Engineering replaces Engineering Drawing and Descriptive Geometry, which are usually given in the second year, but which will be taken only in the third year. Students, whose interests lie in Chemical Engineering, must take in their second year Analytic Chemistry and Organic Chemistry in the place of Mechanical Engineering and the Philosophy of Science.

The pre-engineering program is rigorous and should not be attempted by anyone who is not well prepared in Mathematics. The usual high school preparation in this subject should include Algebra I and II, Plane Geometry and Trigonometry.

While this program is drawn up with transfer to The Catholic University of America in view at the end of the Sophomore Year, it does not exclude transfer to other engineering schools.

It is understood, of course, that the student must maintain minimum academic standards at St. Michael's to be recommended for transfer. If so recommended, the transfer will be effected without loss of time or credit.

Members of this year's freshman class may enroll in the pre-engineering course next fall if they meet the prerequisites.

Photos

(Continued from page 1)

photography contest, the editor concluded, appears to be an ideal way to acquire good, informal shots.

"MICHAELMAN" TO COOPERATE

The MICHAELMAN will feature a Picture-of-the-Week series, the winner each week receiving a cash prize of $3.00 from the "Shield." These weekly winners, along with all pictures submitted, automatically become eligible for the Grand Prize to be awarded after the March 1 deadline. Such a set-up is designed to give all interested a chance to cash in.

Contest judges will be Dr. Henry Fairbanks of the Humanities Dept., Mr. John Donoghue, Public Relations Director and Dick Bousquet, Yearbook Photography Editor. Contest rules will be circulated throughout the campus, Flynn added, urging that every student take part in the contest. "Whether a picture wins or whether it doesn't win a cash prize, it still stands a very good chance of being published in the Yearbook," he concluded.

PRINTS MAY BE RETURNED

Prints will be returned to each contestant if such a request is made. Thus, even a student's "precious" pictures can be safely entered in the contest. All entering students and faculty members are urged to watch the MICHAELMAN for news of weekly winners as well as further contest developments.

ACTING, WRITING WITS TO COMPETE

Announcement was made this past week of the opening of the many contests in the interclass activities program.

The interclass drama play competition night will be held on November 28-29 with all four classes presenting their selected plays in Austin Hall.

At the same time, it was announced that the interclass writing competition, which will last through the whole year, was scheduled to start November 2.

PLAYS SELECTED

Some of the classes have already started work towards selecting their play for the big play night.

The Frosh, directed by Gerry Caferelli and Bob Yopp, have already picked their play, "Flashback," and intend to start casting for the different actors in the near future.

The Sophomores, under Ken O'Neil, Pierre Pelletier and Dom Villoni, are expected to start preparing their production soon although they have not picked their play.

The Juniors, with Joe Brault directing, have chosen "Submerged," as the play they will present to the audience on play night.

The Seniors, under Ray Geremia, have also yet to pick their play.

The interclass writing competition, open to all students on the campus, will be judged by certain faculty members towards the end of the year and the best efforts will be printed in the last regular issue of the "Lance," the college literary magazine.
